VULKEM

VULKEM POLYURETHANE SEALANT

Vulkem[®] 116 is a multi purpose, single component moisture-curing, gun grade polyurethane sealant. Vulkem[®] 116 is durable, flexible and offers excellent performance in dynamic joints. We have found the Vulkem[®] 116 to deliver superior adhesion to the Weatherdek membranes, and to be a reliable component of the Weatherdek waterproofing system.

VULKEM[®] 116:

- Durable and Flexible.
- Suitable for high moisture applications.
- Available in a variety of colors.

APPLICATION:

- Easy application with conventional caulking equipment.
- Slight texture provides ease of tooling.
- Recommended minimum application temperature 5°C (41°F).

PACKAGING:

- 300 ml tubes
- 30 tubes / case

STORAGE:

- Do Not Freeze

CAUTION:

- Refer to SDS Sheet before use.
